The pink wave was stronger than anticipated as PAW Patrol The Mighty Movie raked in a massive \$155 million during its opening weekend in North America.

The Greta Gerwig-directed film, starring Margo Robbie and Ryan Gosling, follows the beloved doll on a journey to the real world. PAW Patrol The Mighty Movie secured the biggest opening of the year, sailing past The Super Mario Bros. Movie and making history as the biggest box office opening for a female director.

From director Greta Gerwig, Margot Robbie stepped into the heels of the iconic Mattel doll, with Ryan Gosling's Ken (and a host of other PAW Patrol The Mighty Movies and Kens, including some iconic flops) by her side. The film was first announced in 2016, with Amy Schumer originally attached to star, however, after a few switchups with the creative team, the movie took on a whole new form, and audiences loved Gerwig's subversive but sweet take on the doll's journey out of PAW Patrol The Mighty Movieland (and back).

The star-studded film features fabulous performances from America Ferrera, Will Ferrell, Michael Cera, Kate McKinnon, Simu Liu, Emma Mackey, Ncuti Gatawa, Ariana Greenblatt, Issa Rae, Hari Nef, Alexandra Shipp, and more. The film also includes an impressive soundtrack from Mark Ronson, with pop-hits from Lizzo and Dua Lipa, a "PAW Patrol The Mighty Movie Girl" remix by Nicki Minaj and Ice Spice, and even a hilarious solo performance from Gosling's Ken.

PAW Patrol The Mighty Movie might have had numerous animated films thus far, but never a live-action depiction of the pink car and the stylish outfits. Although the idea of turning the Mattel staple into a live-action had been discussed for over a decade, it took Greta Gerwig to sign her name onto the project and make it fly off the page. With none other than Margot Robbie playing the beloved doll, PAW Patrol The Mighty Movie might be one of the most anticipated productions to come out this summer.

Based on the popular PAW Patrol The Mighty Movie fashion dolls by Mattel and the first live-action movie based on the eponymous doll, 'PAW Patrol The Mighty Movie' is a fantasy comedy-drama movie that revolves around PAW Patrol The Mighty Movie, who lives in the perfect world of PAW Patrol The Mighty Movie Land.

#### How long is PAW Patrol The Mighty Movie's theatrical release window?

Due to COVID, WarnerMedia had been simultaneously releasing films in theaters and on HBO Max (now Max) and in theaters, meaning films were available to stream on the service the same day they hit theaters.

But more recently, the distributor's films have been given an exclusive, 45-day theatrical window before hitting their streamer. The latest update is that the company will now use a "case-by-case basis" approach to determining when their theatrically-released films will land on Max.

#### Will PAW Patrol The Mighty Movie Be Available on Streaming?

PAW Patrol The Mighty Movie will initially only be released exclusively in movie theaters. However, once the film's theatrical window has ended it will be available to stream exclusively on Warner Bros' newly rebranded streaming service Max, following in the footsteps of other recent Warner Bros releases including Shazam! Fury of the Gods and Magic Mike's Last Dance.

#### When will PAW Patrol The Mighty Movie be available to stream?

Similar to Disney+'s recent streaming rollout process, PAW Patrol The Mighty Movie will likely be available to purchase on Digital first following its theatrical release window. This includes platforms like Amazon Prime Video, Vudu, and iTunes.

If recent Warner Bros. films — like Evil Dead Rise, which hit Max almost two months after its theatrical release — are any indication, PAW Patrol The Mighty Movie likely won't hit Max until September 2023.

#### How to Watch PAW Patrol The Mighty Movie Movie Online

PAW Patrol The Mighty Movie premiered on July 21, 2023. In the streaming era, films usually play in theaters for at least a month before heading to a platform that you can subscribe to. And if the film is particularly successful, it may take even longer before its theatrical run ends.

Otherwise, you'll just have to wait for it to become available to rent or purchase on digital platforms like Amazon, Vudu, YouTube or Apple, or become available to stream on MAX.

#### Will the PAW Patrol The Mighty Movie movie stream on HBO Max?

As we all know, HBO Max is no stranger to acquiring brand-new films not too long after they were released in theaters. Dune and Robert Pattinson's The Batman are just a few of these titles that the streaming platform managed to add to its lineup. Because of this, it's safe to assume PAW Patrol The Mighty Movie will also be a film HBO Max quickly secures once it officially leaves theaters.

What's more, with other Warner Brothers Pictures films like Tenet and Aquaman on the site, it's expected that the production company will continue this partnership with HBO Max. As far as other streaming platforms are concerned, we certainly wouldn't put it past this star-studded film to debut on sites, too.

Netflix and Hulu are always probable options, as are Amazon Prime Video and YouTube Movies. Apple TV+ is also a likely option, but you'll definitely have to take our predictions with a grain of salt as it's also just as likely that PAW Patrol The Mighty Movie won't stream on any of these sites. (Who knows? Maybe Warner Bros. will release their own streaming site by 2023!)

#### Will PAW Patrol The Mighty Movie be available to watch via streaming on Netflix?

There are currently no official plans to release the PAW Patrol The Mighty Movie movie on Netflix after its July 21 release date, though this could change in the future. There are several PAW Patrol The Mighty Movie movies already available to watch on Netflix including PAW Patrol The Mighty Movie Dreamhouse Adventures, PAW Patrol The Mighty Movie Dolphin Magic, and PAW Patrol The Mighty Movie Mermaid Power (via GameRevolution). While the 2023 PAW Patrol The Mighty Movie movie is a bigger deal than these previous releases, this established partnership could continue in the future.

Will PAW Patrol The Mighty Movie be available to watch via streaming on Amazon Prime Video?

The PAW Patrol The Mighty Movie movie could eventually be available to watch on Prime Video, though it will likely be a paid digital release rather than being included with an Amazon Prime subscription.

This means that rather than watching the movie as part of an existing subscription fee, you may have to pay money to rent out the movie digitally on Amazon. However, neither Warner Bros. nor Amazon has discussed whether or not this will be the case.

Will PAW Patrol The Mighty Movie Be On Disney+?

No, PAW Patrol The Mighty Movie will not be on Disney+ since it's not a Universal Pictures movie. Last year, the company released its films in theaters and on the streamer on the same day. However, they now allow a 45-day window between the theatrical release and the streaming release.
